PROFILE SUMMARY

Computer Science & Engineering student with hands-on experience in data analysis, backend development, and dashboard creation. Skilled in Python, SQL, FastAPI, Power BI, and data visualization, with experience building data-driven applications and extracting actionable insights. Smart India Hackathon Finalist (2024 & 2025) with strong analytical and problem-solving skills.

EDUCATION

Future Institute of Technology | CGPA – 7.39

Aug. 2022 – Jul. 2026

Bachelor of Technology in Computer Science & Engineering

Kolkata, West Bengal

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, C
- **Frontend Technologies:** HTML, CSS
- **Backend Frameworks:** Flask, FastAPI
- **Database:** MySQL, MongoDB
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn
- **BI & Reporting Tools:** Power BI, Excel
- **Development Platforms & Tools:** Git, Visual Studio Code, PyCharm, Cursor, Google Colab, Netlify, Render

EXPERIENCES

AI Data Annotation Intern – Utah Tech Labs

March 2026 – Present

- Annotated and labelled multi-modal datasets (mainly images) with high accuracy following project guidelines.
- Reviewed and validated datasets to ensure quality, consistency, and reliability.
- Achieved productivity targets while maintaining strict data confidentiality standards.

PROJECTS

SoleStyle – Full-Stack E-Commerce Platform

[GitHub](#)

- Developed a full-stack shoe e-commerce platform with 32+ files, 25 REST APIs, 5 MongoDB collections, and 6 indexes using FastAPI, Motor, MongoDB Atlas, and JavaScript.
- Implemented product discovery with 11 filters, 4 sort modes, full-text search, and pagination, covering 12 products across 7 brands, 4 categories, and UK sizes 1–12.
- Integrated Razorpay payments with HMAC-SHA256 verification, bcrypt hashing, 7-day JWT authentication, and optimized checkout with configurable shipping.

HR Attrition Website

[GitHub](#)

- Built a full-stack HR Attrition Intelligence Dashboard using FastAPI and JavaScript to analyse 1,470 employee records across 35 features, enabling real-time workforce analytics with <1s API response time.
- Performed 12 RESTful APIs and 10 interactive Chart.js visualizations, implementing filtering across 4 workforce dimensions to improve analytical drill-down efficiency by 40%.
- Identified an overall ~16% attrition rate, with certain high-risk segments showing 2× higher turnover probability, providing actionable insights for data-driven retention planning.

Job Market Analysis Dashboard

[GitHub](#)

- Created a Power BI dashboard analyzing 3,000+ job records across 10+ roles, using Power Query/DAX to create 15+ KPIs, slicers, and drill-throughs.
- Identified 2–3× salary growth, \$180K+ senior salaries, the US as the top market, and 35–40% salary growth (2020–2022) for data-driven insights.

CERTIFICATES

- Smart India Hackathon Finalist 2024 & 2025 | [Certificate](#)

December 2024 & 2025
